This book was produced in EPUB format by the Internet Archive.

The book pages were scanned and converted to EPUB format automatically. This process relies on optical character recognition, and is somewhat susceptible to errors. The book may not offer the correct reading sequence, and there may be weird characters, non-words, and incorrect guesses at structure. Some page numbers and headers or footers may remain from the scanned page. The process which identifies images might have found stray marks on the page which are not actually images from the book. The hidden page numbering which may be available to your ereader corresponds to the numbered pages in the print edition, but is not an exact match; page numbers will increment at the same rate as the corresponding print edition, but we may have started numbering before the print book's visible page numbers. The Internet Archive is working to improve the scanning process and resulting books, but in the meantime, we hope that this book will be useful to you.

The Internet Archive was founded in 1996 to build an Internet library and to promote universal access to all knowledge. The Archive's purposes include offering permanent access for researchers, historians, scholars, people with disabilities, and the general public to historical collections that exist in digital format. The Internet Archive includes texts, audio, moving images, and software as well as archived web pages, and provides specialized services for information access for the blind and other persons with disabilities.

IMPORTANT HEALTH WARNING ABOUT PLAYING VIDEO GAMES Photosensitive seizures A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games. These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms - children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued. If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing. _HELP - TECHNICAL SUPPORT _ @ | ii you encounter difficulties installing or running Farming Simulator 2013 Titanium Edition, do not hesitate to contact our technical support department by email. E-Mail : support@focus-home.com Please provide our tech support team with as much information as possible on the type of problem you are experiencing, how and when it occurs, and your PC’s DxDiag. FS-titanium_MANUEL_INT.indd 2 04/09/2013 10:26:23

+ a oe Se BEFORE YOU GET STARTED Before installing the game please make sure your computer fulfills the system requirements: ¢ Microsoft Windows XP Windows Vista, Windows 7 or Windows 8 ¢ 2 GHz Intel or equivalent AMD processor ¢ NVIDIA GeForce 6800 Series, ATl Radeon X850 or S3 Chrome 430 GT or better (min. 256 MB VRAM) ¢ 1 GB RAM ¢ 2 GB free hard drive space ¢ Soundcard INSTALLATION AND GAME LAUNCHING Insert the DVD into your PC's DVD ROM drive and the installation should start automatically. If the autostart function has been deactivated, click on My Computer, choose your DVD device and then double click the file with the name cdstart or cdstart.exe. a Then, click on the button “Install the game”. Once the installation is done, and ® before installing the Titanium content, you will first need to launch the game. ® At first launch, you will be asked to enter the key product, which can be found inside the DVD box, or on your purchase confirmation mail (if you bought the game by download). Once done, please click on “Install the Titanium content”. An activation key will be asked, which can also be found inside the DVD box, or on your purchase confirmation. mail. Once the activation done, the Titanium content will install. After this step done, you can launch the game, and so fully enjoy the game and all its latest features. Va You can find the game in the Start menu by navigating to Programs/Farming Simulator 2013/Farming Simulator 2013. TaN, \ ] ! oe wie bE tt IF ? d = FS-titanium_MANUEL_INT.indd 3 04/09/2013 10:26:28

Welcome to Farming Simulator 2013 Titanium Edition. The manual has been designed to help you take your first steps in this world full of possibilities. Find out everything you want to know about the different crops, livestock, fertilizers, and vehicles in the game. The guide is nonetheless not complete; experience is still the best teacher in Farming Simulator. So give it a try! Once you have launched the a ULL i. game, you will access the main ~~ menu of the game where you can | SLM S- 8 choose from the following menus: Credits CAREER This is the main part of the game. In this mode, you are completely free to decide what jobs you are going to carry out and how you are going to develop your farm. ® % ~ MULTIPLAYER Play with players from all over the world, and collaborate together to develop at best your farm. TUTORIAL The tutorials are designed to introduce new players to the basic mechanics of the game. When you press Esc during a tutorial, a summary of the objectives to achieve is displayed. DOWNLOAD MODS Customize the game by downloading mods. Aaa. ACHIEVEMENTS ivi i This is where you can check the OPTIONS v | mini ry (i. , ‘ a, Set up the game_options acc ‘o your preferences. | A ioe |: (Ta aE | NW ial H | | ; EA uw i Find out who partic Dated In the SEE et of the game. + a oC SCE Ran . We recommend playing the tutorials before starting a new career. They help you become familiar with how the game works and with the different types of vehicles. To start a new game: 1. First select career mode in the main menu. 2. Select the location you want to save your progress to from the list. 3. You are then proposed, three levels of difficulty: Easy, Normal, and Hard. A description of the difficulty is displayed. 4. Finally, select the map you want to play on: Hagenstedt or Westbridge Hills. lf, after playing the first map, you want to play a game on the second, go through the steps from the start; select an empty save game location and select the map you want. 5. You then begin your career with a few fields and a small number of vehicles. Ta Farming Simulator lets you manually save your progress at any point (Press Esc to oe pause the game, then click on Save to save it). : es Once the game has been saved, you can access it via Main Menu > Career > Select game. ~ = —_ — — Se Ne eS, FS-titanium_MANUEL_INT.indd 5 04/09/2013 10:26:31

Farming Simulator 2013 Titanium Edition supports mouse, keyboard or a gamepad like the Microsoft Xbox 360 Controller for Windows. You can adjust the controls according to your preferences in the options menu or use the default settings as shown here: XBOX 360@ CONTROLLER FOR WINDOWS ONLY Run Gi Accelerate Hold for secondary functions , Refuel or refill tool +, 'D a functions > Interact with objects (+ EX) Hire/dismiss worker (+QB, +) Vehicle functions BD Brake Move i= Steer qp «all PDA (+ QJ) Browse PDA Attach/detach Confirm (menu) Skip message box S Navigate (menu) %& BY Zoom camera ©® switch vehicle oOo Call in game menu START gS Look around Switch between Jum Back attached tools ap eh eanaera au +®) «) () (®) Tool functions 1-4 tf: ® &) (A) ®) Cruise control levels 1-4 3+ Light on/ off @+8 Honk + Tool functions i> The vehicle functions are used forthe mote complex vehicles, like the front loader, so you can move their arms a Some buttons naWecvera f e secondary arn to. press and:hold. @g ata — : > s The fourth cruise control iavel alfehte you to ais the speed of your tractor to that of a driving combine harverster. You have a PDA that you can check with the | key of your keyboard. Press this key several times to change category. When you are in the PDA‘s ‘Map’ menu, press 9 to switch between the 2 different oe levels of zoom. 31 32 When you are in the other PDA menus, pressing | control scrolls through the different pages of information. 1. Control screen: indicates the actions you can perform. 2. PDA 3. a. Time of day b. Time scale: You can change this value to speed the game up via the options menu. c. Day/night cycle indicator 4. Bank account: tells you what your sales figure is and so how much money you have. STORE North of your farm Hn is a vehicle store where you ci can purchase vehicles, equipment, and animals. You can access it at any time by pressing the P key. You still have to go there to pick up your purchases. FS-titanium_MANUEL_INT.indd 8 04/09/2013 10:26:34

1. Equipment categories 2. Equipment available in the selected category 3. Equipment data sheet. 4. Equipment purchase price. 5. Selling price SALES From time to time the vehicle store has temporary sales on specific equipment. You te also receive a message to make sure you don’t miss it. PAUSE MENU ® There are several tabs. © - Briefing - Map views: has different displays showing what's growing where, as well as the state of your fields. You can change these displays with the arrows in the right bottom. - Vehicle selection: displays a map indicating the current position of all of your equipment. If you want, you can reinitialize their position by checking the Square on the right bottom, then by selecting the vehicle icon on the map. To quickly get to the vehicle of your choice, please select its icon on the map. - Configuration: This is where you can adjust several game options, such as the time scale, the mission frequency, and the help display on the maps. a Ld V4 Me FS-titanium_MANUEL_INT.indd 9 04/09/2013 10:26:37

FS-titanium_MANUEL_INT.indd 10 FIRST STEPS IN THE GAME This is the main part of the game. You are in charge of your farm and free to develop it at your own pace. 00 SILOS There are several silos at your farm where you can store your harvest temporarily. Each silo is labeled with the grain type it contains. To store your harvest in a silo you have to unload a filled tipper into the pit next to the silos. When the trailer stands in the correct position, a blue icon is displayed, and you can unload the tipper. At the start of the game you can walk into the rotating symbols with question marks to get gameplay information relevant to this location. You can also use the phone booths to receive further hints about the game. To load a tipper you have to steer it underneath the silo of the desired grain type. The pipe opens automatically as soon as you are positioned correctly. Potatoes and sugar beets are located separately in the storage building next to the silos. Behind the building are two conveyor belts that allow you to fill your trailers. PURCHASING FIELDS } To work a field you have to buy it first. Each field not in your possession has a rotating buy symbol in its center. If you activate this symbol, a description of the field is displayed (field area & price) and you receive the option to purchase it. The buy symbol of each field is at the same spot where you see the field's number on the PDA map. Fields already in your possession are marked with green numbers on the map. Occasionally a field is being auctioned off. This gives you the opportunity to purchase the field for significantly less money, if you manage to be the highest bidder at the end of the auction. If you do not want to bid at a field auction you can always buy the field later on for the regular price HIRING A WORKER You can hire a worker to help you in the fields. This person will give you a hand with a specific task, such as harvesting") > You can start and ee a worker as Often : ‘ like by pressing H. Note that all work — i a. eT 04/09/2013 10:26:38

+ oo SELLING CROPS To make money, you have to grow plants and deliver the harvest to one of the unloading stations. The prices of the different types of grains constantly change and the stations don't all accept the same ones, and don't pay the same prices. Check your PDA to see the applicable prices. SELLING ANIMAL PRODUCE If you buy animals, you gain another source of income: cows produce milk, sheep provide wool, and chickens lay eggs. It's up to you to make sure you get the best price for it. MISSIONS At regular intervals, you get the chance to carry out specific missions in a set time. If you accept the mission, an indicator starts to blink on the map, showing you where you have to go. There is also a countdown telling you how much time you have left to complete the task. You earn money for each mission you successfully complete. TYPES OF SEEDS You are free to choose which of the _ four types of grains (wheat, rape, barley, or corn) you want to sow. Nonetheless, you should only sow) what you can reap, as ripe grain starts to rot if not harvested. To reap corn, you need a combine harvester with a specially designed corn blade that can be bought at the store. rape corn barley POINTS OF SALE & GRAIN PRICES To Tae oney, you have to deliver your harvest to one of the points of sale (train = “eon our mill, inn, freight yard, or warehouse). The price Eestis on the frequency and quantity sold for each type of grain. For example, if you keep selling rape, its price keeps decreasing until you make almost no profit. On the other hand, the types of grains that you don't sell for a while will fetch a high price. Check the figures on your PDA to see the applicable prices at each point of sale. © FS-titanium_MANUEL_INT.indd 11 04/09/2013 10:26:40

GREAT DEMAND Since the unloading stations are competing with each other, it can happen that a station detects a sudden need for a certain commodity. In that case a temporary great demand starts. During a great demand the unloading station in question offers a significantly higher price than its competition. You receive a message as soon as a great demand starts and you can look up all currently running demands on your PDA. FINANCES Another way to make money and manage your finances consists of going to the bank. If you go to an ATM and activate the rotating money symbol, you can see a detailed overview of your financial situation. In the finance screen you can see all income and expenditures of the current day and the two days prior. The loan you have from the bank is also displayed. If you need more money urgently, you can borrow some from the bank here in steps of 5000$. However, at the end of each day, you will have to pay excessive interest on the loans you take out. Tee To successfully tend to your fields and feed your animals regularly, you have a large @ selection of vehicles and tools at your disposal: ® TRACTORS Many tools can only be used when they are attached to a tractor. The larger and heavier the implement, the sturdier and more powerful the tractor needs to be. FRONT LOADERS The front loader or telescopic loader allows you to perform tasks like tran po rting pallets of sheep wool or unloading Ato a Me PLOWS W Before you.can st Our 1 id tc i the soil with a. plow. — of siz available at the s FS-titanium_MANUEL_INT.indd 12 04/09/2013 10:26:43

WP See | SOWING MACHINES Depending on the sowing machine model you can sow different kinds of seeds. The description at the vehicle shop gives you more information. Sowing machines empty as they are used. To refill them you need to bring them to seed pallets which can be found at your farm, at the farm shop and at the garden center. SPRINKLER To improve the eventual harvest, you can fertilize growing plants with a sprayer. The sprayers empty as they are used and have to be refilled at the blue fertilizer tank located on your farm. If you have cattle, you can use manure to fertilize your fields in a more organic way. {iy COMBINE HARVESTERS Once the grain is ripe you can climb into a combine, attach the fitting cutter and harvest the field. To harvest corn you need to attach specially oe designed corn headers. TRAILERS Once a combine's tank is full, you can unload the harvest into a tipper. Then you can drive the trailer to one of the unloading stations where you receive money for your crop. If you do not want to sell your harvest directly, you can store it temporarily in the silos at your farm. BALERS The straw that accumulates during the threshing process can be pressed into bales. There are balers available for square and for round bales. AUTOMATIC BALE LOADERS The automatic bale loader makes collecting and transporting square bales a lot easier. Afterwards you can stack the bales wherever you need them. FS-titanium_MANUEL_INT.indd 13 04/09/2013 10:26:48

CULTIVATORS Use a cultivator to loosen the soil. After cultivating a field, you can seed it again. MOWERS Use a mower to cut grass. Grass ready to be mowed can be found almost anywhere, but you can also create your own grass fields. FORAGE WAGON Attach the wagon to a tractor, activate it and then drive over mowed grass to load it. You can feed the hay to your animals or dump it on one of the green haystacks. TEDDER To accelerate the drying process of mowed grass, you can turn it with the rotor tedder. WINDROWER | The windrower prepares mowed grass by raking it into & windrows which makes it easier for the forage wagon or & | the baler to collect it. POTATOES To plant potatoes you have to purchase the correct machines. First you need a potato planter, like the GL 420 from Grimme. To fill the machine with potatoes, you can place it under the conveyor belt at your farm or Perit potatoes manually with a frontloader plus shovel. You can also fill the planter at the pallets with seeds, though that costs you additional money. ou need the self-propelled DN 415 from Grimme. With this ere oO tatoes ine | unload your pot t une Jerneath the harvester's FS-titanium_MANUEL_INT.indd 14 04/09/2013 10:26:53

* SUGAR BEETS Similarly to potatoes you need special machinery to plant and harvest sugar beets. For sowing you can use the precision airplanter EDX 6000 from AMAZONE. Sugar beet seeds are available at the seed pallets at your farm, at the farm shop or at the garden center. To harvest sugar beets you can use the self-propelled sugar beet harvester MAXTRON 620 from Grimme. This machine works similar to the potato harvester. RS eT SH Aside from vehicles and tools you can also buy livestock at the shop. If you purchase cows, they are automatically transported to their pasture. MILK PRODUCTION = Cows only give milk if they are well-fed. You can feed them with hay, cut corn, or straw. If you give them enough, they produce more milk. If you don't give them enough of one of them, the @ milk production will be cut in half. The statistics of your PDA keep you informed about the fill level of the feeding trough (hay) and the driving silo (chopped corn). The milking robot on the cow pasture automates the milking process. The cows walk through the installation on their own if they feel like giving some milk. The dairy's milk truck drives to your cow pasture daily and picks up the stored milk. At the ae i each day the money earned from sold milk gets booked to your account j AN SLURRY TANKER _ Aside from milk your cows also produce liquid manure which is fey ‘stored in. the blue tank at the cow pasture. This is where you can fill the slurry tanker in order to spread the manure on your fields as an organic fertilizer. You can also fill it at the Biofuel factory. FS-titanium_MANUEL_INT.indd 15 04/09/2013 10:26:56

FS-titanium_MANUEL_INT.indd 16 MANURE SPREADER With this trailer you can spread manure on your fields. Use the front loader's shovel to haul manure from the dungheap next to the cow pasture into the manure spreader. FORAGE HARVESTER As mentioned earlier, you can provide your cows not only with grass but with chopped corn as well. Corn silage is produced by the Krone forage harvester. Since the forage haverster has no tank of its own, you either need to directly attach a trailer to it or hire a worker and drive along the harvester with a trailer. Unload corn silage at the driving silo next to the cow pasture or unload it into one of the silos at the biogas plant. MIXER WAGON If you want to optimize the forage for your cattle you can use the Kuhn SPV Confort 12. The self-propelled mixer wagon allows you to mix hay, Silage and straw. As soon as the proportions are within an acceptable range, the forage symbol to the right goes from red to light blue and you can start feeding your animals. SHEEP As with cows, any sheep you buy automatically get transferred to their pasture. The sheep are the only animal that produces wool. The more animals you have and the happier they are, the more quality wool they will produce.There is a concrete slab at the sheep pasture where a pallet of wool appears in regular intervals. You can use a front loader to pick up and transport these pallets to the area marked out at the spinning mill where they are sold. CHICKENS Similar to cows and produce mainly depends and chicken coop and gs you. can be sold tn the village or at tthe farm ani at the roti egg symbol. 04/09/2013 10:27:01

Farming Simulator 2013 Titanium Edition allows you to manage your farm together with several other players via Internet or LAN. Select ‘Multiplayer’ in the main menu to start a multiplayer game or to join an already created game. JOIN GAME Select this option to join an existing game. You get to see a list of the currently available games from which you can choose one. If a game Is running with mods, you need to install them as well. You can look at the details of each game to see which mods are required. CREATE GAME Here you can create your own game that other players can join. As with a regular career game you first select a savegame, difficulty and map. In the following screen you can adjust additional settings, like the maximum number of players allowed in the game or the mods used. A click on ‘Start’ opens the game. CHAT To communicate with other players in the game you can start the chat by pressing T and then type a short text message. TRANSFER MONEY ts In a multiplayer game each player has their own account balance. However, you can transfer money to other players by pressing L. This opens a screen where you @ can select the player and the amount you want to transfer. @ For further information about multiplayer games please visit the support section of www.farming-simulator.com. > © | — aS Set a ei SE \ =e FS FS-titanium_MANUEL_INT.indd 17 04/09/2013 10:27:01
